The Temple Medical & Educational District (TMED) is one of the 18 planning districts within the City of Temple. Each district plan has a similar planning process that is intended to complement the City's Comprehensive Plan with a more focused effort at the neighborhood level. This plan looks at the existing conditions and engages residents and stakeholders to derive genuine information and direction from those within the district. While using the best practices for planning, the results of each plan define specific recommendations that are unique to each planning area.
